Bug report

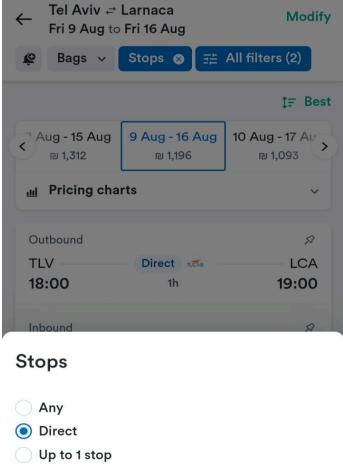

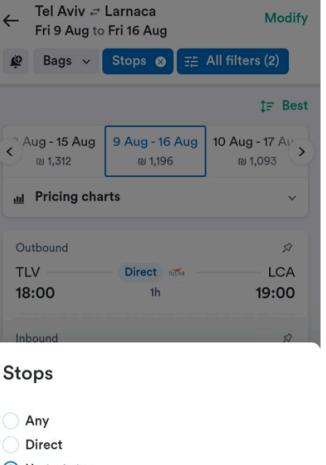

(this only happens after making a change, if a change wasn't made in "Stops" in a specific reservation, the bug will not occur)

Title: "Close" button- closes and saves changes instead of just closing.

Description: In the "Stops" menu there are 2 buttons "Close" and "Save", changing selection and tapping on "Close" saves the changes instead of closing without saving. (I assumed it is a bug)

Bug recovery steps:

Step 1	Step 2	Step 3	Step 4
Tap on “Stops”	Change selection	Tap on “Close”	Tap on “Stops”
 <p>The screenshot shows the flight search interface for Tel Aviv -> Larnaca on August 9-16. The 'Stops' button is highlighted with a red circle. The 'Direct' option is selected under the 'Stops' dropdown.</p>	 <p>The screenshot shows the flight search interface after changing the stop selection. The 'Up to 1 stop' option is highlighted with a red circle.</p>	 <p>The screenshot shows the flight search interface after closing the stops dialog. The 'Up to 1 stop' option is still highlighted with a red circle.</p>	 <p>The screenshot shows the flight search interface after tapping on 'Stops' again. The 'Up to 1 stop' option is highlighted with a red circle.</p>

Expected result:	Actual result:
<p>The changes will not be saved</p>  <p>The screenshot shows the flight search interface for Tel Aviv -> Larnaca on August 9-16. The 'Stops' button is highlighted with a red circle. The 'Direct' option is selected under the 'Stops' dropdown. The 'Up to 1 stop' option is also selected. The 'Allow overnight stopovers' checkbox is checked.</p>	<p>The changes were saved</p>  <p>The screenshot shows the flight search interface for Tel Aviv -> Larnaca on August 9-16. The 'Stops' button is highlighted with a red circle. The 'Up to 1 stop' option is selected under the 'Stops' dropdown. The 'Allow overnight stopovers' checkbox is checked.</p>

Severity: Low. There are no significant effects, and low probability of occurrence since the intuitive way is to exit this screen when the **desired selection** is marked (and not when the selection to be canceled is marked).

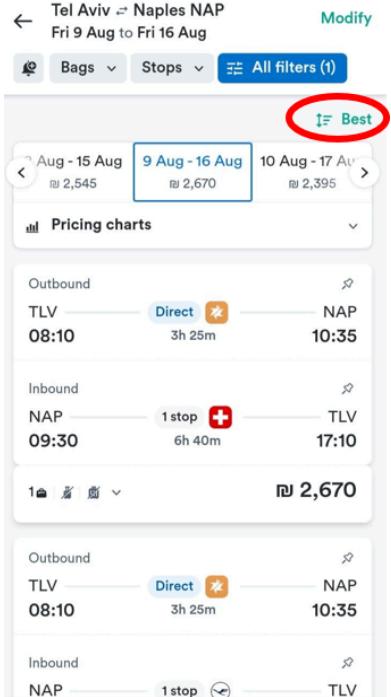

Priority: Low. As the severity and effect are low, there is no need for an immediate fix.

Bug report

Title: After setting filter “Duration”, results are shown that do not match the filter setting

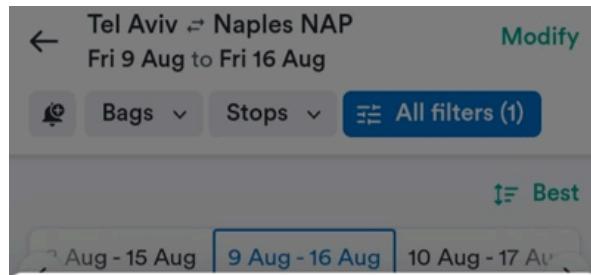

Description: After setting “Duration” filter to 9 hours, results show journeys longer than 9 hours

Bug recovery steps:

Step 1	Step 2	Step 3
<p>In the filter “Duration” set “Max travel time” to 9 hours</p> 	<p>Tap on “Show results”</p>	<p>Tap on “Best”</p> 

Expected result: Results will be shown with a duration of up to 9 hours

Actual result: Results were shown with a duration longer than 9 hours
